THE TOPLINE ROOM COLLECTION

Kitchens & bathrooms

A closer look at light, privacy and practical everyday operation.

KITCHEN | MANUAL ROLLER

Pull-chain operation is shown in this illustrative room scene. Compare a cordless option for a clean finish.

BATHROOM | LIGHT-FILTERING LOOK

This illustrative scene shows a soft neutral palette. Confirm moisture suitability and nighttime privacy before selection.

COMFORT AT A BUTTON PRESS

A living room that adapts

Motorized shades can move together across multiple windows with a compatible control system.

Same clean shade. A different way to control it.

Choose manual operation for hands-on control, or motorized operation for convenient access to large or hard-to-reach windows. Motorized shades look similar to manual shades; the difference is the drive and control system.

Remote, power supply, app and voice-control compatibility are confirmed for your selected system.
